

## DIRECTIONS TO MPALA RESEARCH CENTRE FROM NANYUKI (DISTANCE 42Km)

### DIRECTIONS TO MPALA RESEARCH CENTER FROM NANYUKI TOWN

Driving through Nanyuki from Nairobi on the main street, turn left after the Total petrol station

After about 3 km the broken surface turns to smooth pavedroad. About 8.5 km out of town (B) turn right at a group of signs. (see image)

After another 21kms, at the end of the paved road you will see a dirt road bearing off to the right **Do not** take this road. Keep straight on the dirt road for another 20kms not taking any of the roads to either side (you will pass a sign for Ol Jogi on your right). You will come to a large metal bridge across the Ewaso Ny'iro river. Cross the bridge and turn left at the T-junction (C), following the rock painted sign to Mpala Research Centre (a right turn will take you to Mpala Ranch).

After about 100m pass a left turn which follows the river upstream. **Do not** take this road (there is a second rock sign with arrow pointing to Mpala Research Centre)(D). About 100 m further there is a third sign indicating Mpala Research Centre to the left. This is the main entrance to MRC.
